DEAR SIR:

We beg to announce the arrival in fine condition of the undermentioned orchids, and we trust you will look through this list carefully as there is a number of things seldom offered in imported stock.

Cattleya Harrisoniae

These are in perfect condition very strong and robust, and will make a grand show next summer.

No. Bulbs. Price per 12		No. Bulbs. Price per 12			
Fine plants	6 to 8	\$12.00	Fine plants	22 to 25	36.00
Fine plants	10 to 12	18.00	Fine plants	26 to 30	48.00

A few large specimens at \$10.00 and \$15.00 each.

Two very large specimens at \$25.00 each.

Cattleya Gigas (true C. Hardyana type.)

These plants came from the only locality where *Cattleya Gigas* and *C. Chrysotoxa* (aurea) grow together, hence a number of fine natural hybrids occurs among them, this we say without the slightest doubt. From this same locality have flowered such fine things as *Cattleya Hardyana alba*, Roebeling's var. and a number of superb *C. Hardyana* which have sold at fancy prices here and in Europe, and if you want to obtain something very choice for a small outlay we can strongly recommend this type of *C. Gigas* as being far superior to any description we can give it here.

Fine plants with 5 and 6 Bulbs, \$3.00 each, \$30.00 per dozen.

Fine plants with 8 and 10 Bulbs, \$4.00 each, \$42.00 per dozen.
